**Invitation to
Research Conference in Labor Market Relations
November 11-12, 2019 at Krusenberg Herrgård in Uppsala**

The Labor Market Relations research program has gathered researchers and other experts to share knowledge on common issues concerning the changes in working life since 2005. The purpose of the conferences arranged within the program is to stimulate a broad exchange between researchers in the field, but also to establish closer contacts between researchers, policy makers and other parties.

This year we are again gathered at Krusenbergs Herrgård in Uppsala to take part in research presentations and talk about working life and the labor market. We have a broad focus this year where all papers connected to labor relations are welcome.

Uppsala Center for Labor Studies (UCLS) is responsible for the practical arrangements. The conference starts with lunch on Monday 11 November and ends with lunch on Tuesday the 12th November. A full program will follow shortly.

Anyone who wishes to present a paper at the conference must state the title and attach an abstract. All questions concerning the transformation of working life are welcomed as we strive for a broad range of subjects. Send your registration with name, address, e-mail and other details such as accommodation preferences or dietary needs to ulrika.ojdeby@nek.uu.se by September 24, 2019. The number of participants is limited to a maximum of 40 persons.

The conference is primarily held in English.

The research program pays for the conference participants' meals and accommodation.

Welcome!
